City of
Summerside

Prince Edward Island
Canada

**Summerside,
Prince Edward Island, Canada**

Setting the pace for aerospace

The Summerside speedway to North American markets is a unique combination of a great many assets: strategic location, government support, fast-track loans, freedom from red tape, move-in-ready facilities, productive workers, and a Living Lab for launching products sooner. Summerside really sets the pace for aerospace... and at one of the lowest costs in the G7.

Prince Edward Island is a tax-free zone

The City of Summerside in Prince Edward Island provides a Tax Rebate Incentive Program for all eligible aviation-related companies. This means a full rebate every year on all corporate income tax paid to the province for operations conducted at Slemon Park. There is also a full annual rebate of all real property tax attributable to ownership or rental of Slemon Park facilities.

Slemon Park is a full-service airport

Summerside's Slemon Park is uniquely positioned to facilitate turnkey solutions for maintenance, repair and overhaul (MRO) — component, airframe, engine accessories, etc.; propeller/rotor blade shop; avionics — in all facets of aerospace including fixed-wing and helicopter.

The airport services private, corporate, charter and military clients, as well as manufacturing and aerospace tenants. Some of the biggest names in the business — Honeywell Engine Systems and Services, Standard Aero, MDS Coatings, Tronosjet, and TubeFab — all call Slemon Park home.

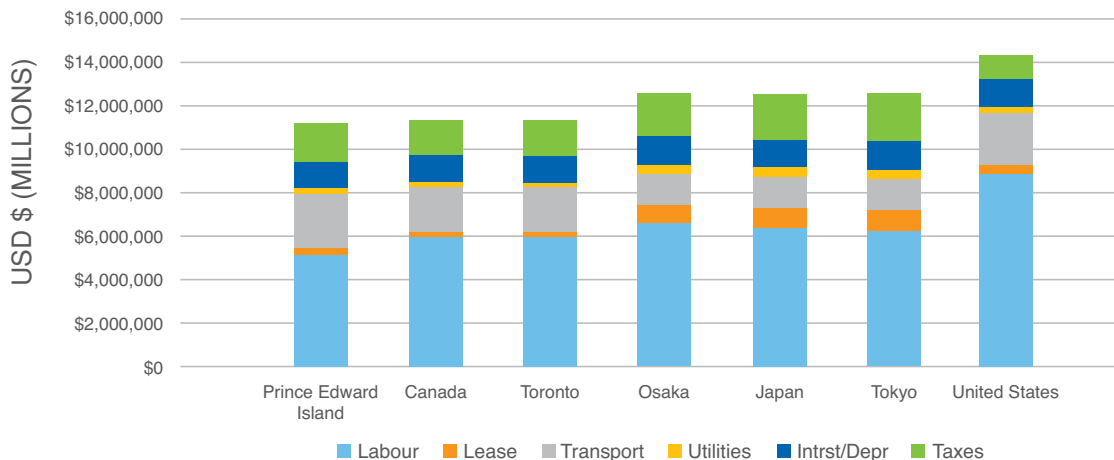

- Full-service FBO airport
- Runway: 8,000 x 200 feet
- Fuel: Jet A-1 (FSII additive available / Avgas (100LL)
- Readily available air space / no scheduled passenger traffic
- Low landing and facility fees
- Heated hangars: 33,000 — 88,000 sq. ft. with 30 — 50 ft. ceilings
- Quick turnaround service times
- 300+ VFR days per year
- Automated Weather Observing System
- Extensive ramp space

The Summerside speedway means complete aerospace infrastructure, experienced workers and government programs offering extra savings of up to 20%.

KPMG Competitive Alternatives 2016

Industry: Aerospace, Aircraft Parts. 10-year average annual total location-sensitive costs

Government Investments in aerospace: 2018

Standard Aero received a \$5-million-dollar investment from the Federal and Provincial Governments to facilitate further growth with an additional 300,000 square feet of manufacturing space.

MDS Coatings received an investment of \$3.2 million through the Atlantic Innovation Fund for further advancements in their manufacturing processes.

***If you are considering expansion in the following sectors
LET'S TALK!***

- Airframe MRO
- Engine and Engine Accessories
- Avionics Operations
- Manufacturing Enterprise (T2/T3)
- Component and Sub-Assembly Manufacturing
- Aviation Training
- Pilot Training
